

IMMUNIZATION TECHNIQUES

BEST PRACTICES WITH INFANTS, CHILDREN, AND ADULTS

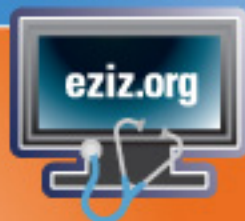

This program focuses on the skills and techniques needed for vaccine administration.

It can be used for training and orientation, as well as a refresher for more experienced staff.

The content covers:

- Injectable, oral and nasal vaccines
- Selecting, preparing and administering vaccines
- Documenting immunizations
- Patient education and comfort
- Staff safety and training
- Demonstrations with infants, adolescents and adults

Download job aids. Get updated immunization information. Access interactive e-lessons.

A production of the California Department of Public Health, Immunization Branch.

Running Time: 25 Minutes
